## French network of cooperative groups in oncology (GCO) at ESMO 2024

The GCO network is a French network of ten cooperative groups conducting clinical and translational research in France and in other countries on solid and liquid tumors (lung, digestive, gynecologic, lymphoma, leukemia, myeloma, head and neck, pediatric and brain cancers...). They are all not-for-profit organizations and have been accredited as “French cooperative intergroup of international dimension in the field of cancer” by the French National Cancer Institute (INCa).
